Dr. Eric Nepute: The \$508 Billion Dollar Man

“You are being sued for

**\$508**

**BILLION DOLLARS...”**

As the FIRST person to be sued by the FTC under  
the COVID-19 Consumer Protection Act

With over 10 MILLION violations...

**Dr. Eric Nepute**

**THE FIRST DOCTOR TO  
SPEAK UP AND  
SHOW UP**

## Dr. Eric Nepute Wins Case Against FTC & DOJ

After 3 years of Abusive Government Tyranny

After almost three years of constant pressure and persecution from the FTC and DOJ, Dr. Eric Nepute prevailed in his war with those weaponized government agencies, who, at one point, attempted to sue him for over 500 Billion dollars.

The federal government falsely accused Dr. Nepute of violating the Covid Consumer Protection Act. This act was signed into legislation in December 2020. As of April 2023, this act is no longer in existence.

At the beginning of the COVID hysteria, Dr. Nepute was one of the first doctors to recognize the true disinformation and misinformation campaign coming from the media and government surrounding COVID-19. Dr. Nepute's heart and mind were set on giving people solid health advice and care and lessening the panic. On a fateful Facebook post, he recommended that people boost their immune systems and help themselves by taking Vitamin D, a proven winner historically in healthcare. His position went viral and was viewed by over 50 million people. This was at the exact same moment that Dr. Anthony Fauci was ratcheting up the fear and panic on every mainstream media network. The government could not allow an alternative solution or narrative and immediately sought to silence Dr. Eric Nepute's voice in various ways.

### The Punishment

The FTC charged Dr. Eric Nepute, the first person ever to be charged, with ten counts in federal court for violating the Covid Consumer Protection Act.

Then the media did its part by shaming and slandering this well-known, highly respected, and incredibly successful Doctor by calling him a "snake oil salesman" in print both in Dr. Nepute's hometown in Missouri and nationally; "FTC charges St. Louis chiropractor with making fake COVID claims" | ksdk.com

Then, the government/media got their new weapon to work, the "fact checkers."

*Chiropractor Again Peddles False, Misleading COVID-19 Claims - FactCheck.org*

His reputation immediately became radioactive. National media outlets like NewsmaxTV refused to interview him.

No mainstream media outlet would allow him to tell his story. He was censored on every media platform, like so many other doctors who also then started standing up. We now know that certain government entities told Facebook to edit accounts, and Dr. Eric Nepute was the first person to get hammered by the censorship police, which shut down all of his social media platforms. He had a large following, reaching 10 to 15 million people weekly.

**"At one point the weaponized FTC and DOJ were going after me for 500 Billion Dollars!"**

- Dr. Eric Nepute

But that wasn't the end. Dr. Eric Nepute also became one of the first Americans to be "debanked" because of government interference. Five of his banks shut down his accounts because of the government. As a healthcare provider, he was removed from the insurance contracts of all major healthcare providers, rendering his patients unable to use their health insurance in his medical practices. The government tried to bankrupt him by cutting down 90% of his business income so that he could not afford his legal fees—a common tactic of the government.

Remember, this is an American citizen with no criminal background. A highly productive, patriotic member of society that helps people's healthcare needs quite successfully.

### The "Khan Job"

Why did all of this happen? Look no further than the head of the FTC, Lina Khan. Described by those who have worked for her as tyrannical and self-serving, Khan is the FTC Chairwoman appointed by President Biden.

This isn't just the opinion of Dr. Eric

Nepute. Two of the five commissioners of the Federal Trade Commission have resigned and have written letters to President Biden explaining that Chairwoman Lina M. Khan and the FTC are using tyrannical tactics and exerting their personal political views and offices of power to silence and suppress average American citizens. Former FTC Commissioner Christine Wilson penned an op-ed in the Wall Street Journal saying, "Khan has no regard for the rule of law or due process."

Numerous articles are complaining about the lawlessness happening at the FTC under Khan.

- The FTC Acts as Both Prosecutor and Jury - WSJ
- FTC chair Khan accused of 'abuse of power' in new US House probe | Reuters
- Lina Khan: The most feared person in Silicon Valley is a 34-year-old in DC | Yahoo Finance

- Why I'm Resigning as an FTC Commissioner - WSJ
- Resignation of Republican FTC Commissioner Christine Wilson says FTC's Khan has no regard for the rule of law or due process | msn.com

But by no means is the FTC the only out-of-control weaponized government agency. In fact, the DOJ in 2020 created a press release that they distributed worldwide, slandering Dr. Eric Nepute.

And Dr. Eric Nepute is not the only Conservative American who's been targeted by the politicized and weaponized DOJ.

### Here's a Top 10 List of the DOJ's Worst Abuses

1. Labeling moms and dads domestic terrorists for going to school board meetings. Let's not forget Sherona

### The Turn Around

With no way to reach his followers and attacks coming from every direction, Dr. Eric Nepute did what he does best. He relied on God. Leaving everything at Jesus' feet, this son of a Missouri Pig Farmer kept a smile on his face and continued his mission of telling the truth about improving your health. He became a regular speaker on The Re-Awaken Tour, taking the stage with nationally known spokespeople like Eric Trump, Kash Patel, General Michael Flynn, RFK Jr., and more. He reached millions at every tour stop for 2+ years.

Dr. Eric Nepute never gave up or gave in. He spent over \$5 million in le-

gal fees defending himself against the government over the past three years.

As a result of his tenacity, he was vindicated by the Missouri State Attorney General's office. He has been vindicated by his professional licensing boards, winning all five challenges. In the motion of summary judgment, the federal judge in his case ruled zero liability for Dr. Nepute. Several United States Congressmen have written letters on behalf of Dr. Nepute decrying the tyrannical abuse of power by the DOJ and FTC.

### What's Ahead

Dr. Nepute is excited about this victory and is writing a book and doing a documentary to tell the world what it is like to be David in a real-life David and Goliath story.

*Modern healthcare treats symptoms, not root causes.* The pharmaceutical industry thrives on dependency, the food industry profits from ultra-processed products, and even our water supply is tainted with harmful chemicals. ***This isn't a coincidence—it's a business model.***

### Sick Care, Not Healthcare

Medical systems focus on symptom management—not real solutions.

### Pharma-Dependency

Big Pharma profits from lifelong prescriptions, not cures.

### Toxic Food Supply

Highly processed, chemical-laden foods fuel chronic disease.

### Contaminated Water

Fluoride, heavy metals, microplastics, medications and pollutants disrupt our health.

# How This Affects YOU...

## Sick, Tired, & Paying the Price

You're exhausted, stressed, and constantly battling symptoms. You take the expensive meds, follow the expensive advice—yet you're still inflamed, tired, and struggling.
